PROFILE

Aspiring Software Developer skilled in Python, DSA, MySQL, AWS, and Web Development, with hands-on experience in cloud, ML and embedded systems projects. Seeking an entry - level software engineering role.

EDUCATION

Bangalore Institute of Technology

Bangalore, India

Bachelor of Engineering in Electronics and Telecommunication Engineering

CGPA: 7.8 / 2022 – 2026

SKILLS

Programming & Core CS: Python, SQL, Data Structures and Algorithms

Ai & ML : Prompt Engineering, Generative Ai Fundamentals, Machine Learning Basics, CNN

Web & Cloud: HTML, CSS, Javascript, React.js, Amazon Web Services (EC2, S3, IAM), MySQL

Tools: Git & GitHub, VS Code, OpenAi, Hugging Face, Cursor, GitHub Copilot

EXPERIENCE

KodNest Technologies Pvt. Ltd (Internship)

Bangalore, India

Python Full Stack Development Intern

Feb 26 - May 26

- Developed a MealBuddy web application using Python, Django, HTML, CSS.
- Worked on SQL, frontend-backend communication, and AI-related concepts and tools.
- Improved debugging, problem-solving, and full stack development skills.

PROJECTS

MealBuddy - Full Stack Web Application

Apr 26 – May 26

- Developed a full stack web application called MealBuddy using Python, Django, HTML, and CSS.
- Implemented features such as user login, food browsing, cart management, and responsive webpage design.
- Improved understanding of frontend-backend workflow, SQL databases, AI concepts, and real-world web application development.

Handwritten Mathematical Expression Recognition System Using CNN

Apr 25–Nov 25

- Designed a deep-learning system to recognize handwritten mathematical expressions from images and convert them into digital LaTeX format.
- Developed the model using Python, CNN (DenseNet-121), attention-based RNN, and OpenCV, including image preprocessing steps such as normalization and noise removal.
- Trained and evaluated the model on the CROHME dataset, achieving reliable recognition of complex expressions.

ACHIEVEMENTS

- Solving MySQL and DSA problems on LeetCode, strengthening problem-solving and algorithmic skills.
- Built and maintained multiple GitHub repositories showcasing projects in Python and Web Development.

CERTIFICATIONS

- **TCS iON - Career Edge (Young Professional)** : Certified in workplace readiness, IT fundamentals (with AI overview).
- **Full Stack Development** : Currently pursuing Web Development coursework by Colt Steele on Udemy.
- **International Conference:** Paper presentation on an Arduino-based hand gesture controlled vehicle. (Dec 2024)
- **Internship** : Corizo EdTech – Completed Cloud Computing internship with exposure to AWS and AI chatbot concepts.
